

ANUPAMA BAJRACHARYA

FULL STACK WEB DEVELOPER

Pokhara, Nepal • 9840260002 • anupama.bajracharya822@gmail.com

<https://www.linkedin.com/in/anupama-bajracharya/>

SUMMARY

Full Stack Developer with over 4 years of experience and a strong backend foundation, currently working with Next.js, Node.js, and PostgreSQL to build modern, scalable applications. Experienced in RESTful API development, system design, and full-stack implementation. Seeking to apply both proven backend expertise and modern stack knowledge in a growth-oriented development team.

WORK EXPERIENCE

Skybase Innovations | Pokhara— Full Stack Web Developer

September 2022- August 2025

- Led end-to-end development of multiple full-stack web applications, contributing to internal systems, client projects, and SaaS platforms
 - Built scalable backend architectures using Laravel, with structured RESTful APIs and secure authentication mechanisms
 - Developed modern frontend interfaces using Blade, Livewire, Next.js, Tailwind CSS, Alpine.js, and Svelte
 - Designed and optimized relational databases using MySQL and PostgreSQL for performance and scalability
 - Delivered over 15 client engagements, collaborating closely with stakeholders to translate business requirements into technical solutions
 - Worked on API integrations, background jobs, and notification systems including Firebase Cloud Messaging (FCM)
 - Contributed to real-world SaaS platforms and management systems serving retail, hospitality, education, and service-based organizations
 - Mentored junior developers and students by conducting training sessions on Laravel, HTML5, and Tailwind CSS
 - Assisted in system design discussions, debugging production issues, and improving code quality through best practices
 - Actively participated in deployment preparation, environment configuration, and Docker-based workflows

Websoft Technology Nepal Pvt. Ltd. | Pokhara— Full Stack Web October, 2021– December, 2021
Developer

- Designed and developed multiple client and internal web applications, contributing to management systems, e-commerce platforms, and CMS projects
 - Developed e-commerce platforms including Kalif Jewelry (custom CMS for jewelry sales) and Alya Cosmetics (Malaysia-based, product and order management)
 - Built client-focused solutions for content management system.
